Using eID for Sheep Management & Breeding

Making your technology work for you - Yard to office to yard approach
Delivered by industry specialists

Who is the course for?

This course is designed for sheep breeders to increase their understanding of the electronic identification (eID) technology, data collection and analysis. Participants will develop the skills and confidence to effectively implement eID within their business. By the end of the course participants will have developed an eID plan for their enterprise. The course is structured to maximise knowledge retention, skills development and practice change.

About the course

Course duration: 4 sessions over 3 months

Training location: 3 group sessions in the local area of the participants
1 one-on-one session with a specialist

Commencement date: Flexible start times throughout the year

Entry requirements: There are no entry requirements for this course

Who will deliver the course?

The Sheep CRC has developed and is licensing this course to the following Registered Training Organisations:

- Rural Industries Skill Training, Victoria
- TAFE Western, NSW
- Tocal Agricultural College, NSW
- TAFE Western, NSW
